CAREER OBJECTIVE

To build a career as an Automation Test Engineer by leveraging my skills in test automation and quality assurance, ensuring delivery of high-quality software solutions while contributing to the growth of the organization.

PROFESSIONAL EXPERIENCE

Sr. Testing Engineer

HCLtech

March 2025-Present

Junior Testing Engineer

ZKTeco Biometrics India Pvt Ltd

August 2022 – Feb 2025

PROFESSIONAL PROJECTS

ZK-BIOSECURITY

Junior Testing Engineer

August 2022 – Feb 2025

Description: Working on ZK-BIOSECURITY, a comprehensive, web-based security platform. This all-in-one solution integrates various security modules, including:

- Access Control

- Time Attendance

- Elevator Control

- Visitor Management

BDLIFE

Sr. testing Engineer

March 2025-Present

Description: BDLife is a banking domain application focusing on core modules such as account management, fund transfers, and payments

Roles & Responsibilities

- Involved in Automation Testing using BDD framework with Selenium WebDriver for executing Smoke and Regression test suites.
- Developed and maintained automation scripts for Web and API applications using Java and Rest Assured, implementing Page Object Model (POM) and reusable utilities
- Participated in functional and regression testing, performing limited manual and API testing as required.
-
- Integrated automation suite with Jenkins and Git for Continuous Integration (CI) and reporting.
-
- Collaborated with developers and participated in client meetings to ensure requirements and customizations were met.
-
- Provided knowledge transfer (KT) to new team members on automation framework and project workflows.

TOOLS AND TECHNOLOGIES

- Defect Tracking: Jira,Rally
- Web Automation: Selenium WebDriver
- BDD Framework: Cucumber
- API Automation: Rest Assured, Postman, Swagger
- Build Tools Maven
- Version Control: Jenkins
- CI/CD: GitHub
- Scripting Language: Java
- IDE: Eclipse,IntelliJ IDEA
- Documentation: MS Excel,MS word, Swagger

TECHNICAL SKILLS

- Automation Testing: Extensive experience in automating Web Applications using Selenium WebDriver with Java as the primary skill area.
- Frameworks: Expertise in implementing BDD Frameworks using Cucumber and Gherkin syntax, and developing custom automation frameworks from scratch.
- API Testing: Worked on RESTful API automation using Rest Assured, with good understanding of HTTP methods (GET, POST, PUT, DELETE) and response validation.
- Manual & API Testing: Performed limited manual testing and API testing activities as part of overall project validation.
- Build & CI/CD Tools: Experience integrating automation with Maven, Jenkins, and Git for Continuous Integration and efficient execution.
- Version Control: Proficient in using Git for code management, branching, and team collaboration.
- Testing Types: Involved in Functional, Regression, Smoke, and Adhoc Testing throughout automation cycles.

EDUCATIONAL QUALIFICATION

- o Bachelor of Engineering in Electronics and Communication Engineering, VTU
- o Intermediate (Science)–Shree Guru Independent PU College
- o High School –Government High School, Kalgi

PERSONAL DETAILS

- ☐ Father name: Shivasharanappa
- ☐ Languages known : English, Hindi, Kannada.
- ☐ Marital status: Unmarried.
- ☐ Hobbies: Playing chess, Painting, Drawing.
- ☐ Native place: Kalburgi, Karnataka.

DECLARATION

I hereby declare that the above information furnished is true to the best of my knowledge.

Place: Bangalore.
